

ANWCC breakdown of competitors for past 5 years (2018-2023)

Figures relate to actual number of competitors who started at least one championship round, and not to the number who have registered interest – this is due to our universal registration system – registered competitors are eligible for all our championships.

The previous year, 2022, was an excellent year, registrations up 35% on 2021 as the effects of Covid were slowly being overcome. 2023 did not prove quite as successful but ended up with 286 championship contenders, a drop of 10% but still a good year compared to the past few years.

The championships with the biggest gain were the Road Rally Championships and the Speed Championship, both recording their highest number of contenders for the past five years.

Other championships were healthy, although the Targa and Historic Road Rally series have not taken off as well as could be expected, while Autotests were a bit of a disaster, entry levels very low except for the National championship events, and none of our contenders actually started enough rounds to qualify for a championship award!

Member clubs reached a new high at 133, by far the most of any of the 13 Motorsport UK Regional Associations, despite the fact that we are geographically the smallest – we spread far and wide as can be seen from the spread of competitors home towns (chart is on the website).

Looking at the groups that Motorsport UK are keen to attract we only had 20 women registered (on a par with previous years), Juniors dropped and Seniors increased, both by numbers and percentage.

Our Speed Championship was linked to the SD34 Motor Sport Group Speed awards and for 2024 all our championships are combined with SD34, who will be presenting awards to their more successful registered contenders.

For 2023 Motorsport UK introduced a regulation that, for certain disciplines, only one date change was permitted. We had voiced our objections and were given verbal dispensation to carry on as before. Our calendar also recorded revisions, with no less than 50 date changes, cancellations or reserves being included over the whole range of disciplines. Had the regulation been strictly adhered to then several major events would have lost championship status. We did not receive a single complaint about our administration of the rules!

During 2023 there were proposals from Motorsport UK Rallies Committee to standardise classes across all championships which would have resulted in major changes to us. After receiving objections the proposal has been put aside.

We do not record ethnic groups, although I am aware of one contender who is of Turkish descent. Equally we do not ask for details of LGBTQ+ people as that is, IMHO, totally irrelevant to our sport – everyone is treated equally and included regardless of ethnicity, religion, gender or sexual orientation.
