Regulations distributed correctly. Final instructions received before event included entry list with main details - no engine sizes quoted but event regulations were in agreement with ANWCC classes. No new registrations and signing-on was described as chaotic. Stages well run, but final results strange in that they show everyone to have finished, including two non-starters! Complaint from car 53 - final time card handed in but lost by organisers, not spotted until results had been finalised then comment from clerk-of-the-course was "Tough S***". Car 53 was still shown as a finisher, although also shown as having retired on last stage - they did win an award! This cost them approx 25 places overall and 3 in class. DVT rating: 7

Letter received 5 March from organisers confirming Turgoose/Millward position as 35th. overall, 4th. in class. Results therefore amended line with this. Original position for crew 53 was 60th overall and 7th in class.
